

VIG InnovationTrend ESG Equity Investment Fund

I series HUF MONTHLY report - 2025 APRIL (made on: 04/30/2025)

INVESTMENT POLICY OF THE FUND

The purpose of the investment fund is to create an equity fund that seeks to benefit from innovation in various industries. The Fund aims to achieve long-term capital growth by investing in global companies that are at the forefront of the use of disruptive technologies and can thus play a leading role in their industries. Disruptive technology refers to innovations or developments that significantly change or disrupt existing industries, business models, products or services. Such trends include, for example, big data (artificial intelligence, cyber security, quantum computers), e-mobility (electric cars and related battery technologies), digitisation and related entertainment (metaverse, e-sports) and, last but not least, fintech and robotics industry breakthroughs.

The Fund aims to achieve its objectives through equity-type instruments, primarily exchange-traded funds (ETFs), equities and open-ended public investment funds. The Fund takes a forward-looking approach and actively seeks companies in industries that show potential for growth through technological innovation. Investments are made in companies that have strong fundamentals and are capable of long-term value creation and achieving competitive advantage through innovation. The investment philosophy is based on the belief that innovation is a key driver of long-term business success and shareholder value. Trends related to technological innovation are long-term processes that extend beyond normal economic cycles and are generally global and affect the entire world. Consequently, the Fund is not subject to any geographical restrictions. Since the Fund aims to profit from long-term growth and has significant exposure to the equity market, we recommend the Fund to investors who want to invest in the longer term and have a relatively high willingness to take risk.

MARKET SUMMARY

Donald Trump's tariff announcements in April caused movements of historic proportions and a rollercoaster ride. At the beginning of the month, the US President announced "reciprocal tariffs" on imports from US trading partners, whereby the US imposes a tariff of at least 10% on all its trading partners (and even higher tariffs on some sixty countries with large trade surpluses with the US). Trump's announcements caused a major upheaval in markets, with volatility soaring, equity and bond markets both falling, the dollar also falling, and a coordinated outflow of capital from US assets. Sentiment became very pessimistic and bond yields rose sharply, which may have reached the pain threshold of policymakers, so Trump suspended tariffs for 90 days against countries that had not applied retaliatory tariffs against the US, a measure that triggered a sharp rise. The S&P500 rallied 9.5%, the biggest one-day rise since the 2008 crisis. The Nasdaq soared 12%, while the Philadelphia Semiconductor Index rose more than ever before in a single day, and equity market turnover hit a record high. In the first quarter of 2025, US technology stocks suffered a significant decline, mainly due to the overvaluation at the beginning of the year and growing market risk aversion. The emergence of China's DeepSeek artificial intelligence platform added to the pressure as it raised the competition against US AI players to a new level, leading to a reassessment of the sector's future profitability and the sustainability of the AI-led growth narrative. As such, quick reports from technology companies played a key role in shaping market expectations: while Microsoft and Meta reported strong numbers - the former mainly driven by its cloud services and the latter by the success of its AI solutions - the results from Apple and Amazon were less convincing, mainly due to a more subdued outlook for the future. The artificial intelligence trend is still one of the most prominent themes in the Fund, but we also have confidence in cyber defense companies.

GENERAL INFORMATION

Fund Manager:	VIG Investment Fund Management Hungary
Custodian:	Erste Bank Hungary Zrt.
Main distributor:	VIG Investment Fund Management Hungary
Benchmark composition:	Fund has no benchmark
ISIN code:	HU0000732987
Start:	02/15/2024
Currency:	HUF
Net Asset Value of the whole Fund:	17,215,733 USD
Net Asset Value of I series:	4,841,992,324 HUF
Net Asset Value per unit:	1.047219 HUF
