3. Risk profile of the investment fund

3.1. Goal of the investment fund

The Fund's objective is to create an investment portfolio that is intended to achieve capital growth through active portfolio management, investing predominantly in US and European companies. Accordingly, the Fund Manager's investment portfolio is composed of developed-market equities, predominantly securities issued by US and European companies and short-term developed-market government bonds. The Fund pursues an active asset allocation policy. If the Fund Manager considers the prevailing capital market conditions to be unfavourable, it may significantly reduce equity exposure in order to protect capital. If capital market conditions appear ideal for taking equity exposure, the Fund Manager may invest the Fund's assets entirely in equities. On average over a full market cycle, the portfolio maintains an equity ratio of approximately 70%.

3.2. The profile of the typical investor for whom the units of the investment fund are intended

The Fund is primarily intended for Investors who plan to invest for at least the recommended minimum investment period and who consider the indicated value on a scale of 1 to 7 of the risk/reward profile to be acceptable in relation to their risk appetite.

Series	Recommended minimum investment time	Risk classification

VIG Active Beta Flexible Allocation Investment Fund (series U, USD)	4 years	3 (medium-low)
VIG Active Beta Flexible Allocation Investment Fund (series UI, USD)	4 years	3 (medium-low)

3.3.Asset categories, in which the investment fund may invest, with a specific indication as to whether the investment fund is authorized to use derivatives

The Fund may invest in equities, bonds, investment funds and other securities, in addition to which it may also conclude derivative transactions. The Fund may also conclude deposit and repo transactions.

3.4. Warning regarding the section of the investment fund rules of procedure that contain the presentation of the investment fund's risk factors

The risk factors of the Investment Fund are contained in Item 26 of the Fund rules

3.5.The purpose (implementation of coverage or investment purposes) and possible effect of application of derivative transactions on the development of risk factors

The Fund uses derivative transactions for the efficient management of the portfolio in order to achieve its investment objectives.

According to the provisions of the Kbtv. regarding investment fund series, the Fund Manager may allocate certain assets of the Fund among the different investment fund series in cases of transactions aimed at hedging currency risk, the purpose of which is to reduce the currency risk of the Fund's specific series against the base currency of the Fund.

The Fund Manager may only engage in derivative transactions on behalf of the Fund to achieve the investment objectives outlined in the Management Regulations and solely for investment purposes. By their nature, derivative transactions involve much higher risks, which can be reduced through appropriate investment techniques, but cannot be entirely eliminated.

3.6. If, on the basis of its investment policy, the consolidated risk exposure of the investment fund against a specific institution, which risk exposure arises from investments in transferable securities or money market instruments issued by that institution, from deposits at that institution and from unlisted derivative transactions, may exceed 20 percent of the assets of the investment fund, call attention to the special risks arising therefrom

In accordance with Section 8 (4) of Government Decree 78/2014, the consolidated risk exposure of the Fund cannot exceed 20% of the assets of the Fund. Other information related to the given topic

3.7.If the Investment Fund mainly invests in asset categories not belonging to the transferable securities or financial instruments or adapts a certain index, call attention to this element of the investment policy of the Investment Fund

Not applicable

3.8.In the event that, due to the possible composition of the portfolio or to the applicable management technique, the net asset value of the Investment Fund may strongly fluctuate, call attention to this fact

Due to changes in the economic and political environment, in the monetary policy of central banks, in the business activities of issuers and deposit-taking institutions, in the solvency of issuers and deposit-taking institutions and the perception of such solvency, and in the supply/demand relationship, the market price of the investment instruments in the Fund's portfolio may fluctuate. The impact of such price fluctuations can be reduced, but not completely eliminated, by the Fund Manager through portfolio diversification, which may result in a reduction in the Fund's net asset value per unit in certain periods.

3.9.If, based on the authorisation of the Supervisory Authority, the Investment Fund may invest even 100% of its assets in various transferable securities and money market instruments issued by an EEA Member State, its self-government, by a third country or an international organization in which one or several member states are members, call attention to this fact

Taking into account the intended proportions of each portfolio element as set out in the Management Regulations, the Fund may invest up to 100% of its assets in government securities issued or guaranteed by the EU, the OECD or G20 countries.

3.10. Other information regarding the relevant subject

The reference index (benchmark) used for the Fund is provided by a benchmark administrator that is listed in the ESMA register, as referenced in Article 36 of Directive 2009/65/EC.

Results of the assessment of the probable impact of the sustainability risk on the return of the offered financial product:

(disclosure as per Article 6 (1) a) of the SFDR)

The return of financial products offered by the Fund Manager, like that of investment funds, may be impacted by sustainability risks (e.g. climate risk, transition risk, extra costs due to the use of fossil fuels). These effects generally occur within a longer investment period, up to 10 years or more, and regarding their results, they may even have a significant impact on the return of a given financial product, thereby possibly deteriorating their performance. (For example, due to increased attention on environmental considerations, a company operating in a given sector, may be subject to a disadvantage if it fails to switch from a “traditional” operating model to a more modern and environmentally sustainable operation method). The above can typically impact the given company’s market perception, and thus its market value in the long run, which factor is duly taken into account by the Fund Manager in the course of the asset selection decisions.

The degree of sustainability risks may differ for each financial product, which the Fund Manager continuously monitors and duly informs investors, as required by law.

In the case of the Fund, the Fund Manager hereby informs investors that the portfolio does not fall into the category of a financial product that promotes specific environmental or social characteristics or a combination thereof as defined in the SFDR Regulation (EU 2019/2088) or a financial product aimed at a sustainable investment. In selecting the investments upon which this financial product is based, the Fund Manager does not take into account the specific EU criteria for environmentally “sustainable” business activities (Taxonomy Regulation, EU 2020/852), as this product does not intend to meet enhanced sustainability criteria.

4. Availability of the information provided to the investors

4.1. The name of the place where the investment fund's prospectus, rules of procedure, key investor information, reports for the purpose of regular information and announcements for the purpose of extraordinary information, including information on payments to investors, redemption of units, are available

The Fund Manager shall publish all regular and extraordinary information and announcements related to the Fund at the official Points of Publication of the Fund. Official Points of Publication of the Fund are website <https://kozzetetelek.mnb.hu> and website <https://www.vigam.hu>

The Public Prospectus prepared for the public offering of the Fund's investment units, as well as the Key Investor Information can be viewed at the distribution points and at the registered office of the Fund Manager.

4.2.Other information related to the given topic

5. Tax information

This information has been compiled in accordance with the applicable legislation. The date of the last amendment of the Prospectus is – in accordance with Section 164 (1) bn) of the Kbtv. [the Hungarian act on collective investment forms] – included in the investment fund register maintained by the MNB [National Bank of Hungary], which is available on the MNB's website at <https://intezmenykereso.mnb.hu>. The current legislation may change after the Prospectus has been written; it is the Investor's responsibility to read and to be aware of the relevant regulations in force before purchasing the investment units. The Fund Manager shall not be liable for any damage caused to Investors due a lack of knowledge on their part of the applicable tax laws. Should the investors have to pay withholding tax on the returns they earn on the investment units, i.e. on price gains, due to changes in the tax regulations, the Fund Manager and the Distributor shall not be responsible for deducting such withholding tax.

Pursuant to Govt Decree 205/2023. (V. 31.) on the alternative application during the state of emergency of Act LII of 2018 on the Social Contribution Tax, natural persons are subject to an obligation to pay social contribution tax on the amount of their interest income as per Section 65 of Act CXVII of 1995 on Personal Income Tax taken into account as the base for the personal income tax payable on interest income – this emergency regulation is in force until 31.07.2024.

Act LII of 2018 on social contribution tax was amended as from 01.08.2024. Pursuant the amendment, the previous temporary emergency rule has been upgraded to statutory status, and, accordingly, natural persons are still subject to an obligation to pay social contribution tax on the amount of their interest income as per Section 65 of Act CXVII of 1995 on Personal Income Tax taken into account as the base for the personal income tax payable on interest income – although no longer under Government Decree 205/2023. (V.31.), but as per Section 1(5) of Act LII of 2018 on the Social Contribution Tax.

Distribution outside Hungary: Please note that a detailed review of tax legislation is essential in making your investment decisions and that tax rules may differ from Hungarian rules in the case of foreign sales. In case of foreign distribution of the Fund's series of Investment Units after the Fund has been passported abroad, the tax rules of the country of distribution will apply.

5.1.A brief summary of the elements of the tax system applicable to the investment fund that are relevant to investors

The result of the Fund is not subject to tax in Hungary when preparing the Prospectus. In the case of interest, dividends, exchange gains and any other income on foreign investments, this income may be taxed in the source country (where the income is generated). Taxation of income from foreign investments is determined by the domestic legislation of the given country and, if any, the double taxation agreement between the given country and Hungary.

The Fund's investment units are subject to a special tax when preparing this Prospectus. The tax base is the average asset value of the Fund's unit series on a quarterly basis, with an annual tax rate of 0.05% of the tax base. The tax payable is determined, collected from the Fund, declared and paid by the Fund Manager.

5.2.Information on deductions at source from returns and exchange gains paid to the investors

- a) According to the legislation in force at the time of preparation of the Prospectus, the rate of interest tax payable on the yield of the Units is 15%, which is deducted by the distributor upon sale. Units can be placed in a permanent investment account, after the yield of which the distributor does not deduct tax.
- b) In the case of domestic legal entities and unincorporated companies - according to the legislation in force at the time of preparation of the Prospectus - the return of the Units may increase/decrease their taxable income, after which they must pay tax in accordance with the

applicable tax legislation. At the time of preparing the Prospectus, the corporate tax rate is 9%. If, at the request of the Investor, the yield of the Units is broken down, then corporate tax is payable only on the exchange rate gain and interest component of the yield, but not on the dividend portion of the yield.

- c) Taxation of foreign individuals, legal entities and unincorporated companies: If there is an agreement on the avoidance of double taxation between Hungary and the unit-holder's own country of taxation, the taxation of income is subject to the legislation of Hungary and the legislation of his own country according to the provisions of the agreement. In the absence of an agreement, Hungarian tax legislation is applicable to foreigners. The Distributor fulfills the tax deduction obligation in accordance with the relevant tax convention and domestic tax legislation.

II. Information related to placing to market

6. Issue of investment units

6.1. Method and Conditions for the Placement of Investment Units

The method of placing into circulation is through a subscription process.

The subscription period is from August 05, 2024, to August 07, 2024.

Place of subscription: The premises of the Fund Manager, 1085 Budapest, Baross utca 1.

The subscription is valid only if the consideration for the Investment Units applied for is credited to the Fund's custody account specified in the Notice by the closing date of the subscription at the latest.

The subscription procedure will be deemed to be successful if at least HUF 200,000,000, i.e. Hungarian forint, of equity capital has been raised by the end of the subscription period.

When checking the HUF 200,000,000 limit, the Fund Manager will take into account the subscription amounts of the foreign currency series at the closing value of the MNB mid-market exchange rate as at the last day of the subscription.

Subscribers may submit their subscriptions in person or by proxy at the place of subscription. Subscriptions are made by signing the subscription forms. The power of attorney for subscription must be set out in a private document with full probative value. Subscribers or proxies will be identified in accordance with the Fund Manager's Terms of Business in force at the time.

The Fund's investment units will be marketed (subscribed) exclusively in Hungary.

6.2. Maximum and Minimum Amount of Units to be Placed in Circulation

7.13.Detailed description of the remuneration policy of the UCITS manager (e.g. method of calculating remuneration and benefits, persons responsible for determining remuneration and benefits, if any, name of the members of the remuneration committee)

At VIG Fund Management, the work of our colleagues creates value for our clients, which is why we have developed working conditions and an incentive system that allows employees who do excellent work to be retained in the long term and also attracts new talent. This requires a competitive remuneration system in addition to work-friendly conditions and ongoing training. Our remuneration philosophy is based on monitoring the labor market and developing appropriate references. Part of our philosophy is to ensure that employees who meet expectations are adequately remunerated. To this end, in addition to a fixed income, we use variable pay in certain jobs, primarily in the area of asset management and sales. At the same time, our remuneration policy only supports healthy risk-taking, thus preventing our colleagues from taking excessive risks that go beyond the mandate. The considered risks also include the sustainability risks, this way supporting the holding's vision that responsible investment practice may create value on the long run. To this end, we make risk indicators part of the interest system, among others, we also use longer-term performance data in the evaluation, and in the case of colleagues with a decisive role in risk-taking (so-called identified), we pay 50% of the variable remuneration, with a three year deferral. Who. This allows the reward to be reduced or

withdrawn in the event of excessive risk taking after the end of the assessment period. Over the three years, the accrued portion will be invested in key investment funds managed by VIG Fund Manager, strengthening the interest in the good performance of the funds. A designated group of employees may also receive an annual variable salary (bonus) depending on performance. Employees involved in the bonus: members of the Board of Directors, fund managers and analysts, senior colleagues in the sales area, and the head of the finance 14 and settlement area. The Fund Manager intends to reward excellent performance for the employees involved in this area on personalized terms. Based on the classification of employees working in the above areas, the maximum bonus that can be paid can reach 100 percent of annual income in the case of excellent performance. Maximum performance is achieved when all set goals are exceeded. The setting of personalized goals is the responsibility of the line manager, while its approval is the responsibility of the Chairman and Chief Executive Officer, excluding the job descriptions of the members of the Board of Directors and the identified employees. In their case, the objectives are set under the supervision of Risk Management, while their approval is the responsibility of the Chairman of the Supervisory Board. The fulfillment of the objectives will be assessed, monitored and approved in accordance with the above. In determining the amounts that can be paid out as a bonus, in addition to achieving the individual goals, the size of the bonus frame calculated and approved by the remuneration committee of the VIG Group appears as an additional consideration. VIG Asset Management Co. has developed and continuously maintains its remuneration policy in such a way that it complies with the sectoral legal requirements governing fund managers and other regulatory requirements, in particular the NBH's recommendation on financial institutions' remuneration policy. In addition to the above, the Fund Manager always takes into account the remuneration principles of the Group during the development of its remuneration rules. The remuneration policy is approved by the Supervisory Board and is implemented by the Board of Directors, which is audited annually by internal audit

7.14.Summary of the remuneration policy of the ÁÉKBV fund manager

For our investors the work of employees of the Fund Management Company creates a value, therefore we developed such working conditions and incentive system by which employees performing excellent work can be maintained for the long run. The monitoring of the labour market and the development of adequate references provides the basis for the Remuneration philosophy of the Fund Management Company. It is also part of our philosophy that employees performing above the expectations should get an adequate remuneration; for this purpose, we apply a variable payment in addition to the fixed income, with special regard to the Asset Management and Sales Departments

7.15.A statement by the UCITS management company that the detailed description of the remuneration policy indicated in Section 7.13. is available through a website (including a link to the website) and is also available in hard copy on request.

The detailed extract of the Fund Management's remuneration policy can be accessed on the Fund Management's website (<https://www.vigam.hu>), or a printout is available at the distribution sites.
