MARKET SUMMARY

Strength remained concentrated mainly at the short end of the yield curve: 3- and 5-year yields fell by 10 and 6 basis points, respectively, while the long end of the curve mostly closed the month unchanged. There was no rate-setting meeting in August, so the key interest rate currently stands at 5%. The Monetary Council will next convene in early September. Moving on with economic data, market expectations suggest that the pace of annual price growth may have continued to decline in August, with the Polish Statistical Office projected to report inflation at 2.9%. Industrial production rose by 2.9% in July, beating market expectations. Retail sales also strengthened, with annual growth rising from 2.2% in June to 4.8% in July. As for public finances, the government recorded a deficit of PLN 37,027.2 million in the seventh month of the year, bringing the 12-month rolling budget deficit to 7.65% of GDP.
