3. Risk profile of the investment fund

3.1. Goal of the investment fund

The purpose of the investment fund is to create an equity fund that seeks to benefit from innovation in various industries. The Fund aims to achieve long-term capital growth by investing in global companies that are at the forefront of the use of disruptive technologies and can thus play a leading role in their industries. Disruptive technology refers to innovations or developments that significantly change or disrupt existing industries, business models, products or services. Such trends include, for example, big data (artificial intelligence, cyber security, quantum computers), e-mobility (electric cars and related battery technologies), digitisation and related entertainment (metaverse, e-sports) and, last but not least, fintech and robotics industry breakthroughs.

3.2. The profile of the typical investor for whom the units of the investment fund are intended

The Fund is primarily intended for Investors who plan to invest for at least the recommended minimum investment period and who consider the indicated value on a scale of 1 to 7 of the risk/reward profile to be acceptable in relation to their risk appetite.

Series	Recommended minimum investment time	Risk classification
VIG InnovationTrend ESG Equity Investment Fund (series A, USD)	4 years	4 (medium)

3.3. Asset categories, in which the investment fund may invest, with a specific indication as to whether the investment fund is authorized to use derivatives

The primary investment vehicles for the Fund are equity-type securities (collective investment securities and equities). In addition to domestic and international equities, the Fund may also hold domestic and international government securities in its portfolio, and may enter into deposit and repo transactions, as well as use derivatives. The Fund uses derivatives for hedging purposes and for the efficient management of the portfolio, in order to achieve its investment goals. The exposure to derivative transactions concluded for the purpose of the efficient management of the portfolio may not exceed 30% of the Fund's net asset value. Warning regarding the section of the investment fund rules of procedure that contain the presentation of the investment fund's risk factors

3.4. Warning regarding the section of the investment fund rules of procedure that contain the presentation of the investment fund's risk factors

The risk factors of the Investment Fund are contained in Item 26 of the Fund rules

3.5. The purpose (implementation of coverage or investment purposes) and possible effect of application of derivative transactions on the development of risk factors

The Fund Manager may conclude derivative transactions for investment instruments on behalf of the Fund solely for the purpose of achieving the investment objectives set out in the Management Regulations. Derivatives by their very nature involve much higher risks, which can be mitigated by appropriate investment techniques but cannot be completely eliminated.

3.6. If, on the basis of its investment policy, the consolidated risk exposure of the investment fund against a specific institution, which risk exposure arises from investments in transferable securities or money market instruments issued by that institution, from deposits at that institution and from unlisted derivative transactions, may exceed 20 percent of the assets of the investment fund, call attention to the special risks arising therefrom

In accordance with Section 8 (4) of Government Decree 78/2014, the consolidated risk exposure of the Fund cannot exceed 20% of the assets of the Fund. Other information related to the given topic

3.7. If the Investment Fund mainly invests in asset categories not belonging to the transferable securities or financial instruments or adapts a certain index, call attention to this element of the investment policy of the Investment Fund

Not applicable

3.8. In the event that, due to the possible composition of the portfolio or to the applicable management technique, the net asset value of the Investment Fund may strongly fluctuate, call attention to this fact

Not applicable

3.9. If, based on the authorisation of the Supervisory Authority, the Investment Fund may invest even 100% of its assets in various transferable securities and money market instruments issued by an EEA Member State, its self-government, by a third country or an international organization in which one or several member states are members, call attention to this fact

Not applicable

3.10. Other information regarding the relevant subject

Results of the assessment of the expected impact of sustainability risk on the return of the financial product offered:

(to demonstrate compliance with Article 6 (1) (b) of the SFDR Regulation)

The returns of the financial products offered by the Fund Manager, including the VIG InnovationTrend ESG Equity Investment Fund, may be affected by the various sustainability risks (e.g. transition risk associated with switching to electric vehicles and circular economy). These impacts typically occur over a longer investment horizon, of 10 years or longer, while their results can have a significant impact on the performance of a financial product and may possibly impair its performance. (For example, the increasing importance attributed to environmental considerations may result in a market disadvantage to a company operating in a particular sector unless it switches from the 'traditional' way of doing things to a more modern and environmentally sustainable method within an appropriate time). Such impacts are typically reflected in the market perception of and thus also in the market value of the company over the longer term, which is something the Fund Manager takes into account in its asset selection decisions.

In the case of the VIG InnovationTrend ESG Equity Investment Fund, the inclusion of ESG considerations, as set out in the investment policy, may mitigate the impact of sustainability risks on the sensitivity of returns compared to other funds targeting a similar investment universe but not specifically adopting an innovation approach. It is because experience to date suggests that funds that take ESG into account suffer lower return losses in the event of market downturns. We expect the same to be true for the VIG InnovationTrend ESG Equity Investment Fund, which may therefore outperform other funds that do not incorporate ESG considerations. In a bull market, however, the opposite trend is likely to occur, as the incorporation of technological innovations takes longer and implies higher investment outlays. Accordingly, the VIG InnovationTrend ESG Equity Investment Fund may temporarily underperform other funds that exclude ESG considerations, but once the transition to the sustainable technology has taken place, this disadvantage, caused by sustainability risks, may be overcome or even outweighed.

4. Availability of the information provided to the investors

4.1. The name of the place where the investment fund's prospectus, rules of procedure, key investor information, reports for the purpose of regular information and announcements for the

purpose of extraordinary information, including information on payments to investors, redemption of units, are available

The Fund Manager shall publish all regular and extraordinary information and announcements related to the Fund at the official Points of Publication of the Fund. Official Points of Publication of the Fund are website <https://kozzetetelek.mnb.hu> and website <https://www.vigam.hu>

The Public Prospectus prepared for the public offering of the Fund's investment units, as well as the Key Investor Information can be viewed at the distribution points and at the registered office of the Fund Manager.

4.2. Other information related to the given topic

Not applicable.

5. Tax information

These details have been compiled considering the applicable laws. The date of the last amendment to the Prospectus, pursuant to Section 164 (1) bn., of the Kbtv., is included in the register maintained by the MNB about the investment fund, which investors can access through the MNB website at <https://intezmenykereso.mnb.hu>. Laws in effect at the time of preparing the Prospectus may change, and it is the investor's responsibility to acquaint themselves with and be informed about the applicable regulations before purchasing investment units. The Fund Manager does not accept liability for any damages caused by an investor's incomplete knowledge of tax-related legislation. If changes in tax laws result in the necessity for investors to pay withholding tax on income or capital gains from investment units, the Fund Manager and the Distributor will inform investors but will not assume responsibility for the deduction of the withholding tax.

According to Government Decree 205/2023 (V. 31.) on the different application of Act LII of 2018 on social contribution tax during a state of emergency, natural persons were required to pay social contribution tax on the amount of interest income considered as the basis for personal income tax under Section 65 of Act CXVII of 1995 on personal income tax. This emergency regulation was in effect until July 31, 2024.

From August 1, 2024, Sections 113-115 of Act XXIX of 2024 amended Act LII of 2018 on social contribution tax. As a result of this amendment, the previous transitional emergency rule has been elevated to statutory level. Therefore, natural persons are still required to pay social contribution tax on the amount of interest income considered as the basis for personal income tax under Section 65 of Act CXVII of 1995 on personal income tax, but now based on Section 1 (5) of Act LII of 2018 on social contribution tax, rather than Government Decree 205/2023 (V. 31.).

Distribution abroad:

The series of the Fund's Units will become available abroad after the Fund has been passported. The special conditions for foreign distribution are highlighted in the relevant sections of the Rules of Procedure

5.1. A brief summary of the elements of the tax system applicable to the investment fund that are relevant to investors

The result of the Fund is not subject to tax in Hungary when preparing the Prospectus. In the case of interest, dividends, exchange gains and any other income on foreign investments, this income may be taxed in the source country (where the income is generated). Taxation of income from foreign investments is determined by the domestic legislation of the given country and, if any, the double taxation agreement between the given country and Hungary.

The Fund's investment units are subject to a special tax when preparing this Prospectus. The tax base is the average asset value of the Fund's unit series on a quarterly basis, with an annual tax rate of 0.05% of

the tax base. The tax payable is determined, collected from the Fund, declared and paid by the Fund Manager.

5.2. Information on deductions at source from returns and exchange gains paid to the investors

- a) According to the legislation in force at the time of preparation of the Prospectus, the rate of interest tax payable on the yield of the Units is 15%, which is deducted by the distributor upon sale. Units can be placed in a permanent investment account, after the yield of which the distributor does not deduct tax.
- b) In the case of domestic legal entities and unincorporated companies - according to the legislation in force at the time of preparation of the Prospectus - the return of the Units may increase/decrease their taxable income, after which they must pay tax in accordance with the applicable tax legislation. At the time of preparing the Prospectus, the corporate tax rate is 9%. If, at the request of the Investor, the yield of the Units is broken down, then corporate tax is payable only on the exchange rate gain and interest component of the yield, but not on the dividend portion of the yield.
- c) Taxation of foreign individuals, legal entities and unincorporated companies: If there is an agreement on the avoidance of double taxation between Hungary and the unit-holder's own country of taxation, the taxation of income is subject to the legislation of Hungary and the legislation of his own country according to the provisions of the agreement. In the absence of an agreement, Hungarian tax legislation is applicable to foreigners. The Distributor fulfills the tax deduction obligation in accordance with the relevant tax convention and domestic tax legislation.

II. Information related to placing to market

6. Issue of investment units

6.1. Method and Conditions for the Placement of Investment Units

The method of placing into circulation is through a subscription process.

The subscription period is from February 14, 2024, to February 16, 2024.

The essential condition for the validity of the subscription is that the consideration for the requested Investment Units must be credited to the deposit account specified in the Fund Announcement by the closing time of the subscription, at the latest.

The subscription process is considered successful if, by the end of the subscription period, at least 200,000,000 HUF, equivalent to Hungarian forints, of own capital has been collected.

Subscribers can submit their subscriptions in person, through an authorized representative, or – if they have a valid framework agreement with the Fund Manager regarding the issuance of electronic instructions on the day of subscription signing – electronically, at the location of the subscription. Subscriptions are made by signing the subscription forms. The authorization for the subscription must be documented in a fully probative private document. The identification of subscribers or authorized representatives is carried out in accordance with the Fund Manager's valid business regulations at all times.

6.2. Maximum and Minimum Amount of Units to be Placed in Circulation

The quantity of Investment Units to be placed in circulation is a minimum of the equivalent of 200,000,000 HUF and has not been specified as a maximum by the Fund Manager.

6.3. Conditions for Allocation

6.3.1. Method of allocation following the subscription maximum

Not applicable.

6.3.2. Time of closure of allocation following the subscription maximum

Not applicable.

6.3.3. Method of notification about allocation

Not applicable.

6.4. Price of Investment Units Placed in Circulation

During the subscription period, all series of investment units can be subscribed at face value. Subsequently, the issuance, redemption, and conversion price of one Investment Unit is the net asset value per Investment Unit, rounded to six decimal places, calculated for each trading day.

6.4.1. Method of disclosing the above price

The subscription price is published by the Fund Manager in this Prospectus and the related Announcement. Subsequently, the Fund Manager is obliged to calculate the net asset value per Investment Unit (market price) for each T+1 trading-settlement day, valid for the Fund's T. trading-settlement day.

6.4.2. Location of disclosing the above price

The subscription price is published by the Fund Manager on the Fund's official Disclosure sites – kozzetetelek.mnb.hu website and www.vigam.hu website – in this Prospectus and the related Announcement.

6.5. Costs Incurred in Connection with the Placement of Investment Units

There are no costs incurred for the Fund during the subscription process.

7.13. Detailed description of the remuneration policy of the UCITS manager (e.g. method of

calculating remuneration and benefits, persons responsible for determining remuneration and benefits, if any, name of the members of the remuneration committee)

At VIG Fund Management, the work of our colleagues creates value for our clients, which is why we have developed working conditions and an incentive system that allows employees who do excellent work to be retained in the long term and also attracts new talent. This requires a competitive remuneration system in addition to work-friendly conditions and ongoing training. Our remuneration philosophy is based on monitoring the labor market and developing appropriate references. Part of our philosophy is to ensure that employees who meet expectations are adequately remunerated. To this end, in addition to a fixed income, we use variable pay in certain jobs, primarily in the area of asset management and sales. At the same time, our remuneration policy only supports healthy risk-taking, thus preventing our colleagues from taking excessive risks that go beyond the mandate. The considered risks also include the sustainability risks, this way supporting the holding's vision that responsible investment practice may create value on the long run. To this end, we make risk indicators part of the interest system, among others, we also use longer-term performance data in the evaluation, and in the case of colleagues with a decisive role in risk-taking (so-called identified), we pay 50% of the variable remuneration, with a three year deferral. Who. This allows the reward to be reduced or withdrawn in the event of excessive risk taking after the end of the assessment period. Over the three years, the accrued portion will be invested in key investment funds managed by VIG Fund Manager, strengthening the interest in the good performance of the funds. A designated group of employees may also receive an annual variable salary (bonus) depending on performance. Employees involved in the bonus: members of the Board of Directors, fund managers and analysts, senior colleagues in the sales area, and the head of the finance 14 and settlement area. The Fund Manager intends to reward excellent performance for the employees involved in this area on personalized terms. Based on the classification of employees working in the above areas, the maximum bonus that can be paid can reach 100 percent of annual income in the case of excellent performance. Maximum performance is achieved when all set goals are exceeded. The setting of personalized goals is the responsibility of the line manager, while its approval is the responsibility of the Chairman and Chief Executive Officer, excluding the job descriptions of the members of the Board of Directors and the identified employees. In their case, the objectives are set under the supervision of Risk Management, while their approval is the responsibility of the Chairman of the Supervisory Board. The fulfillment of the objectives will be assessed, monitored and approved in accordance with the above. In determining the amounts that can be paid out as a bonus, in addition to achieving the individual goals, the size of the bonus frame calculated and approved by the remuneration committee of the VIG Group appears as an additional consideration. VIG Asset Management Co. has developed and continuously maintains its remuneration policy in such a way that it complies with the sectoral legal requirements governing fund managers and other regulatory requirements, in particular the NBH's recommendation on financial institutions' remuneration policy. In addition to the above, the Fund Manager always takes into account the remuneration principles of the Group during the development of its remuneration rules. The remuneration policy is approved by the Supervisory Board and is implemented by the Board of Directors, which is audited annually by internal audit

7.14. Summary of the remuneration policy of the ÁÉKBV fund manager

For our investors the work of employees of the Fund Management Company creates a value, therefore we developed such working conditions and incentive system by which employees performing excellent work can be maintained for the long run. The monitoring of the labour market and the development of adequate references provides the basis for the Remuneration philosophy of the Fund Management Company. It is also part of our philosophy that employees performing above the expectations should get an adequate remuneration; for this purpose, we apply a variable payment in addition to the fixed income, with special regard to the Asset Management and Sales Departments

7.15. A statement by the UCITS management company that the detailed description of the remuneration policy indicated in Section 7.13. is available through a website (including a link to the website) and is also available in hard copy on request.

The detailed extract of the Fund Management's remuneration policy can be accessed on the Fund

Management's website (<https://www.vigam.hu>), or a printout is available at the distribution sites.
