

VIG Alfa Absolute Return Investment Fund

UI series USD MONTHLY report - 2025 NOVEMBER (made on: 11/30/2025)

INVESTMENT POLICY OF THE FUND

The aim of the fund is to achieve a substantial yield for investors by taking high risks and making active use of derivative positions. The Fund applies special investment strategies used by hedge funds to establish its strategy. The fund is willing to buy or sell all available investment instruments - domestic and foreign bonds (treasury bonds, discounted treasury bills, bonds issued by the National Bank of Hungary, as well as low-risk bank and corporate bonds expected to bring higher yields than the state securities) Equities and other securities, indices and currencies - provided it sees the opportunity to make substantial gains - up to the maximum limit allowed by the law, which allows double leverage for the Fund. In its investment decisionmaking mechanism, the Fund considers fundamental pricing, technical and behavioral psychological factors To ensure liquidity the Fund aims to hold government securities issued by the State Debt Management Centre (ÁKK) on behalf of the State of Hungary.

MARKET SUMMARY

In November, we increased our equity exposure by purchasing Central and Eastern European stocks. We believe that the Fed's interest rate cuts will support investors' risk appetite, and that the favourable Hungarian (7x P/E) and Polish (10x P/E) stock market valuations and corporate earnings growth will provide a favourable entry point for next year. We have realised profits on some of our Romanian foreign currency bonds.
