

INVESTMENT POLICY OF THE FUND

The objective of the fund is to offer to the investors calculable investment yields at low risk. The Fund Manager may exclusively invest its fund assets in bond-type assets, mainly securities issued or guaranteed by the Polish State. Furthermore, the Fund may to a limited extent invest in debt and equity securities issued or guaranteed by the European Union, or its organization, the European Central Bank or the European Investment Bank, provided that its credit rating is at least equal to that of the Polish state and is denominated in Polish zloty. Weighted average remaining duration of the assets in the portfolio of the Fund may not exceed 6 months, and the weighted average remaining life of the assets may not exceed 12 months. In addition, the remaining term of the individual securities can be no more than years, or 397 days until the next interest determination date. For the sake of liquidity, the Fund may keep its financial assets in form of bank deposit, as well. Assets of the Fund are 100% denominated in Polish zloty.

VIG Polish Moneymarket Fund is not a guaranteed investment. The risk of loss of the principal is to be borne by the investor. An investment in VIG Polish Moneymarket Fund is different from an investment in deposits, with particular reference to the risk that the principal invested in VIG Polish Moneymarket Fund is capable of fluctuation. VIG Polish Moneymarket Fund does not rely on external support for guaranteeing the liquidity of the fund or stabilising the NAV per unit or share.

MARKET SUMMARY

Polish government bonds performed well again in November. Yields fell by 19 basis points on 3-year maturities, by 22 basis points on 5-year maturities, and by 19 basis points on 10-year maturities. At its early November rate setting meeting, the central bank cut interest rates once more, lowering the key rate by 25 basis points to 4.25%. In its new economic forecast, the central bank raised its GDP growth projection for 2026 by 0.6 percentage points to 3.7%, while lowering its inflation forecast to 3%. For 2025, the central bank expects average inflation of 3.7% and GDP growth of 3.5%. Turning to economic data, according to preliminary figures, the annual inflation rate fell in November: the Polish Statistical Office measured year-on-year inflation of 2.4%, placing the rate below the central bank's inflation target. Food price growth slowed, and lower inflationary pressure may also have come from components of the core inflation basket. Industrial production grew by 3.2% in the tenth month of the year. Retail sales were also stronger, with annual growth in October reaching 5.4%, surpassing market expectations. As for public finances, the state recorded a deficit of PLN 25,656.6 million in October, bringing the 12-month rolling budget deficit to 8.15% of GDP.
