Polish equity market was bearish as well and both the Wig20 and wig index fell about 8 percent in September. Thanks to the 8.19% monthly loss of the Wig20 index AEGON Bessa could gain 1.85% from the previous month. Although on the medium turn after recent sell-off we are more constructive on the equities on the short run the global equity markets are still very uncertain so we plan to keep at least 20% short exposure according to the funds investment policy.

**Market Summary:**

The equity markets had huge turbulances in September. After the failure of Lehman Brothers and the default of some European banks and the failure of the bailout bill in the US we saw the worst days on the capital markets in the recent history. In this environment the
