Currency:	HUF
Total Net Asset Value of the Fund:	9,852,596,865 HUF
Net Asset Value per unit:	2.013306 HUF

INVESTMENT POLICY OF THE FUND:

Hungary's first total return fund, the AEGON MoneyMaxx Expressz Mixed Fund opened introduced a new category to the Hungarian investment fund market. We launched this fund because a lot of our clients pointed out that they don't feel experienced enough in the field of investment, so it is difficult for them to decide in which fund they should invest. The constantly changing market situation imposes a challenge for the investors, raising the questions of when and how they should re-allocate their portfolio. The AEGON MoneyMaxx Expressz Mixed Fund meets these needs, and shoulders the responsibility for making the right investment decision for private investors who want to get familiar with moderate risk and who are not too risk-averse. According to the opinion of the fund manager, our Fund is allowed to invest in any kind of Hungarian bond or equity, or it can invest in international bonds or equities. The fund manager's financial leeway is very wide – while paying maximal attention to the compliance with the law – meaning, on one hand, 100% of the portfolio can be invested in equities or, on the other hand, the portfolio can contain T-bills up to 100%. We recommend this Fund to investors who are willing to take more risks (in some cases the risk may be similar when investing in equity funds), as well as to investors who prefer their savings constantly managed and transferred from one asset class to another, in accordance with the changing market situation and the anticipation of professional portfolio managers.

MARKET SUMMARY:

The fund closed a very strong month once again (+2.9%) and also outperformed other total return funds. Favourable international market sentiment in combination with attractive initial valuation levels drove prices higher in eurozone periphery government bond markets, as well as in the credit and equity space. The generalised optimism on investors' side was supported by incoming data signalling the turn of the economic cycle in most economies, as well as a more forceful and coordinated monetary easing than ever. The healing of European bank balance sheet thanks to the ECB's 3-year LTRO brings relief to the CEE region in particular. Having taken advantage of the two-month rally we began de-risking the fund.

ASSET ALLOCATION OF THE FUND ON 02/29/2012
