CONVERSION NOTICE

Reasons for the Fund's conversion

The conversion of the Fund will give the Fund Manager the opportunity to continue to operate the Fund with an even greater sales potential. In compliance with the UCITS Directive, following even stricter and uniform European rules for retail investment funds will serve and protect investors' interests even better than before.

The Fund will also become available to foreign investors as a harmonised fund under the UCITS Directive, which may lead to an increase in the size of the Fund, with potentially positive effects for domestic investors as well, as the Fund can operate more cost-effectively.

Date of conversion of the Fund

The date of conversion will be 13 September 2022.

Conditions for the conversion of the Fund

The Fund Manager does not set any conditions for the conversion. As a statutory condition for the conversion, the Fund Manager is required to prepare an amended prospectus containing the reason, date and conditions of the conversion and submit it to the Supervisory Authority for approval. The Fund will convert on the date set out in this Prospectus as the Conversion Date, subject to the approval of the conversion, i.e. the approval of the amended prospectus by the Supervisory Authority. **Fund investors will not incur any costs directly related to the conversion.**

Redemption opportunities free of fees and commissions

After obtaining the approval of the Supervisory Authority for the conversion, the Fund Manager will publish this notice setting out the fact and the basic terms of the conversion. There is a period of at least 30 days between the publication of the conversion notice and the date of conversion for investors to request the redemption of their units without any extra fee or commission, to be settled no later than the date of conversion. The start date of the period of redemption free of fees and commissions is 12 August 2022 and its last day is the trading day prior to the conversion, i.e. 12 September 2022. **Investors who wish to maintain their investment have nothing to do with the conversion of the Fund.**

Fund Manager's decision on the conversion of the Fund and its approval by the Supervisory Authority

The conversion of the Fund was decided by the Board of Directors of the Fund Manager by Resolution No. 9/2022 of 10 May 2022, for the reasons set out above. The Supervisory Authority approved the conversion prospectus by Decision No. H-KE-III-394/2022.

Features of the Fund affected by the conversion, summary of changes

Change according to the harmonisation of the Fund

The conversion of the Fund does not create a new Fund. A conversion pursuant to Paragraph (1) of Section 80 of Act XVI of 2014 on Collective Investment Trusts and Their Managers, and on the Amendment of Financial Regulations (hereinafter: Kbfv.) means a change in the Fund's features under Point (f) of Paragraph (1) of Section 67 of the Kbfv., i.e. the type of harmonisation of the Fund changes

from a fund harmonised under the AIFMD to a fund harmonised under the UCITS Directive on the date of the conversion.

Changes in the Fund's investment policy

Following the conversion, the Fund continues to aim to profit from global megatrends that extend beyond economic cycles. After the conversion, the Fund will operate as an equity investment fund instead of the previous fund of funds investment strategy.

Changes to the Fund's investment limits

The Fund's investment limits change as a result of the conversion in part to comply with the legal requirements applicable to UCITS funds, which are stricter than the rules applicable to AIFs, and in part, to reflect the changes justified by the discontinuation of the fund of funds strategy.

Tax information concerning the conversion of the Fund

The conversion of the Fund does not affect the taxation of investors and the features of the units as described in the Management Policy (ISIN code, currency) remain unchanged. Investors can find more tax information in Chapter 5 of the Prospectus.

The consequences of the conversion of the Fund on the cross-border trading of units

Following the conversion of the Fund, the Fund Manager will initiate the foreign passporting of the Fund to make the Fund's units available to foreign investors. Therefore, the Fund's Management Policy and Prospectus also contain specific conditions for foreign distribution.

DEFINITION OF TERMS

UCITS	a) a public open-ended investment fund which complies with the requirements for UCITS laid down in the Government Decree on the Investment and Borrowing Rules for Investment Funds issued pursuant to this Act, or b) a public open-ended collective investment scheme established on the basis of the transposition of the rules of the UCITS Directive into the law of another EEA State.
UCITS Fund Manager	an investment fund management company managing one or more UCITSs as regular business
UCITS Directive	Directive 2009/65/EC on undertakings for collective investment in transferable securities
Fund	VIG MegaTrend Equity Investment Fund
Base currency	HUF, i.e. Hungarian Forint. It is the currency in which the Fund records its assets. The Fund may even invest a portion of its assets in securities issued in a currency differing from its base currency.
Fund Management Company	Aegon Hungary Investment Fund Management Closed Company Limited by Shares
ÁKK	Államadósság Kezelő Központ Zártkörűen Működő Részvénytársaság (Government Debt Management Agency Public Ltd in Hungary)
Investment Fund	a collective investment form set up under the conditions defined in Act XVI of 2014 on collective investment forms and their managers
Investment unit	a transferable security issued in series by the Investment Fund as issuer in the manner and with formalities defined in the Collective Investment Act, providing receivables and other rights against the investment fund as defined in the fund rules of the investment fund
Investor	the holder of the investment unit or any other collective investment security
Target country	a country on the capital market of which the Fund makes investment or intends to make investment strategically
Target currency composition	The currency composition that matches the composition of the composite reference index by settlement currency: 15% EUR + 15% CZK + 15% HUF + 45% PLN + 10% RON, i.e., Euro, Czech koruna, Hungarian forint, Polish zloty and Romanian lei.

Dematerialized security	It is an aggregate of data created, recorded, transmitted and registered in electronic way, in the manner as defined in the Capital Market Act and in special law, containing the content requirements of a security in identifiable manner
Excess performance	the difference between the net performance of the portfolio and the performance of the benchmark
Crystallisation frequency	the frequency at which the accrued performance fee, if any, becomes payable to the management company
EU	European Union
EEA state	any member state of the European Union and any other states being parties to the Agreement on the European Economic Area
Supervisor	National Bank of Hungary – Financial Supervisory Authority (earlier: Hungarian Financial Supervisory Authority)
FIFO Principle	the first purchase of a specific security in the portfolio is sold first
Distributor	The Fund Management Company and further dealers participating in the sale of Investment units. For current list see item 1.6 of the Prospectus.
Distribution sites	Sites appointed by the Distributor for sale of the Investment units of the Fund. The list of distribution sites is accessible at the website of the Fund Management Company: https://www.aegonalapkezekelo.hu/
Distribution day	all business days in Hungary, except the events of suspension or interruption of the distribution, for which day the net asset value is assessed.
G20	G20 is an organisation comprising the world's 19 largest economies and the European Union.
Collective Investment Act	Act XVI of 2014 on collective investment forms and their managers, and on the amendment of certain financial laws
Fund rules	a regulation containing special rules of the Fund, prepared pursuant to the Collective Investment Act, specifying the general contract conditions between the Fund Management Company and the Investors
Auditor	PricewaterhouseCoopers Könyvvizsgáló Kft.
Publication sites	websites https://www.aegonalapkezekelo.hu/ and https://www.kozzetetelek.mnb.hu/
Relative return	Relative return the return achieved by the fund compared to the specified benchmark
Benchmark model	a performance fee model whereby the performance fees may only be charged on the

basis of outperforming the reference benchmark.

Benchmark	a market index against which to assess the performance of a fund
Custodian	UniCredit Bank Hungary Closed Company Limited By Shares
Order	Order to buy, redeem or switch investment units
MNB	National Bank of Hungary
Net asset value	value of assets in the portfolio of the investment fund, including receivables from lending, reduced by total liabilities encumbering the portfolio, including the accrued expenses
OECD	Organisation for Economic Co-operation and Development
Civil Code	Act V of 2013 on the Civil Code
Own capital	the own capital of the Investment Fund is equal, at the beginning, to the product of multiplication of the nominal value and the piece number of the investment units; in the course of its operation, own capital is identical with the aggregate net asset value of the Investment Fund
Series	In the name of an investment fund investment units can be issued that constitute one or more series, have the same nominal value within the same series and incorporate the same rights. The Fund rules and the Prospectus determine in details the characteristics of the individual series by which they deviate from each other.
SFDR Regulation (Sustainable Finance Disclosure Regulation)	Regulation (EU) 2019/2088 of the EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 November 2019 on sustainability-related disclosures in the financial services sector
Taxonomy regulation	Regulation (EU) 2020/852 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 June 2020 establishing a framework for the promotion of sustainable investment and amending Regulation (EU) 2019/2088
Target currency	USD, i.e. US dollars. The currency that is the same as the settlement currency of the reference index (USD).
Trading day	each business day on which the Fund Manager calculates the net asset value
Prospectus	a document prepared according to the Collective Investment Act for public issue of Investment units
T day	the date of placing an order for executing a deal

Capital Market Act Act CXX of 2001 on Capital Market

Client account an account kept for a client, which is exclusively aimed at the execution of orders placed to the debit of the balance of the investment service, commodity exchange service and the payment based on the liability included in the security.

2.7. Other information regarding the relevant subject

Not applicable.

3. Risk profile of the Investment Fund

3.1. Purpose of the Investment Fund

The fund aims to profit from global megatrends that extend beyond economic cycles. Such trends may include demographic changes (ageing society, developing markets), efficiency gains due to scarce resources (renewable resources, energy efficiency), urbanisation, or even technological innovation.

3.2. Profile of the characteristic investor who are targeted with the investment units of the Investment Fund are

The Fund is primarily targeted to Investors who intend to invest at least for the proposed minimum investment period and who find the value indicated on a scale ranging from 1 to 7 on the risk/profit profile acceptable in comparison to their risk-bearing appetite.

Series	Proposed minimum investment period	Risk rating
VIG MegaTrend Fund (A series, EUR)	4 years	6 (high)
VIG MegaTrend Fund (B series, HUF)	4 years	6 (high)
VIG MegaTrend Fund (C series, CZK)	4 years	6 (high)

VIG MegaTrend Fund (CI series, CZK)	4 years	6 (high)
VIG MegaTrend Fund (EI series, EUR)	4 years	6 (high)
VIG MegaTrend Fund (I series, HUF)	4 years	6 (high)
VIG MegaTrend Fund (R series, HUF)	4 years	6 (high)
VIG MegaTrend Fund (U series, USD)	4 years	6 (high)
VIG MegaTrend Fund (UI series, USD)	4 years	6 (high)
VIG MegaTrend Fund (P series, PLN)	4 years	6 (high)
VIG MegaTrend Fund (PI series, PLN)	4 years	6 (high)

3.3. The asset categories in which the Investment Fund can invest, with special reference to the fact whether the application of derivative transactions is permitted for the Investment Fund

The primary investment vehicles for the Fund are equity-type securities (collective investment securities and equities). In addition to domestic and international government securities, the Fund may also hold domestic and international equities in its portfolio, and may enter into deposit and repo transactions, as well as use derivatives. The Fund uses derivatives for hedging purposes and for efficient portfolio management in order to achieve its investment objectives. Exposure of derivative transactions for efficient portfolio management may not be higher than 30% of the net asset value of the Fund.

3.4. Call attention to the item of the Fund rules of the Investment Fund that contains presentation of the risk factors of the Investment Fund

The risk factors of the Investment Fund are contained in Item 26 of the Fund rules

3.5. The purpose (implementation of coverage or investment purposes) and possible effect of application of derivative transactions on the development of risk factors

On behalf of the Fund, the Fund Management Company is allowed to enter into derivative transactions only for the purpose of achieving the investment goals formulated in the Fund rules, for investment assets. Due to their nature, the derivative transactions bear much higher risks, which can be reduced by using appropriate techniques, but cannot be fully excluded.

3.6. If, on the basis of its investment policy, the consolidated risk exposure of the investment fund against a specific institution, which risk exposure arises from investments in transferable securities or money market instruments issued by that institution, from deposits at that institution and from unlisted derivative transactions, may exceed 20 percent of the assets of the investment fund, call attention to the special risks arising therefrom

In accordance with Section 8 (4) of Government Decree 78/2014, the consolidated risk exposure of the Fund cannot exceed 20% of the assets of the Fund.

3.7. If the Investment Fund mainly invests in asset categories not belonging to the transferable securities or financial instruments or adapts a certain index, call attention to this element of the investment policy of the Investment Fund

Not applicable.

3.8. In the event that, due to the possible composition of the portfolio or to the applicable management technique, the net asset value of the Investment Fund may strongly fluctuate, call attention to this fact

Not applicable.

3.9. If, based on the authorisation of the Supervisory Authority, the Investment Fund may invest even 100% of its assets in various transferable securities and money market instruments issued by an EEA Member State, its self-government, by a third country or an international organization in which one or several member states are members, call attention to this fact

Not applicable.

3.10. Other information regarding the relevant subject

The reference benchmark used for the Fund (benchmark, reference index) shall be produced by a benchmark indicator managing organization that is included in the register referred to in Article 36 of Directive 2009/65 / EC (ESMA register).

Results of the assessment of the probable impact of the sustainability risk on the return of the offered financial product:

(disclosure as per Article 6 (1) a) of the SFDR):

The return of financial products offered by the Fund Manager, like that of investment funds, may be impacted by sustainability risks (e.g. climate risk, transition risk, extra costs due to the use of fossil fuels). These effects generally occur within a longer investment period, up to 10 years or more, and regarding their results, they may even have a significant impact on the return of a given financial product, thereby possibly deteriorating their performance. (For example, due to increased attention on environmental considerations, a company operating in a given sector, may be subject to a disadvantage if it fails to switch from a “traditional” operating model to a more modern and environmentally sustainable operation method). The above can typically impact the given company’s market perception, and thus its market value in the long run, which factor is duly taken into account by the Fund Manager in the course of the asset selection decisions.

The degree of sustainability risks may differ for each financial product, which the Fund Manager continuously monitors and duly informs investors, as required by law.

In the case of the Fund, the Fund Manager hereby informs investors that the portfolio does not fall into the category of a financial product that promotes specific environmental or social characteristics or a combination thereof as defined in the Disclosure Regulation (EU 2019/2088) or a financial product aimed at a sustainable investment. In selecting the investments upon which this financial product is based, the Fund Manager does not take into account the specific EU criteria for environmentally “sustainable” business activities (Taxonomy Regulation, EU 2020/852), as this product does not intend to meet enhanced sustainability criteria.

4. Accessibility of information to the investors

4.1. Naming of the place where the prospectus, the fund rules, the key investor information documents, the reports serving regular information as well as the announcements designed for extraordinary information, including the information regarding payments to the investors and redemption of investment units can be accessed

The Fund Management Company publishes all pieces of regular or extraordinary information as well as announcements regarding the Fund at the official publication sites of the Fund. The official Publication

sites of the Fund are the websites <https://www.kozzetetelek.mnb.hu> and <https://www.aegonalapkezekelo.hu>.

The public Prospectus as well as the Key Investor Information Document prepared for public issue of the investment units of the Fund can be inspected at the distribution sites and in the headquarters of the Fund Management Company.

4.2. Other information regarding the relevant subject

Not applicable.

5. Taxation information

This information has been compiled in accordance with the applicable legislation. The date of the last amendment of the Prospectus is – in accordance with Section 164 (1) bn) of the Kbtv. [the Hungarian act on collective investment forms] – included in the investment fund register maintained by the MNB [National Bank of Hungary], which is available on the MNB's website at <https://intezmenykereso.mnb.hu>. The current legislation may change after the Prospectus has been written; it is the Investor's responsibility to read and to be aware of the relevant regulations in force before purchasing the investment units. The Fund Manager shall not be liable for any damage caused to Investors due a lack of knowledge on their part of the applicable tax laws. Should the investors have to pay withholding tax on the returns they earn on the investment units, i.e. on price gains, due to changes in the tax regulations, the Fund Manager and the Distributor shall not be responsible for deducting such withholding tax..

Distribution abroad: The Fund Management Company calls the investors' attention to the fact that detailed review of the taxation laws is essential in making their investment decision and to the fact that in case of sale to a foreign country, the taxation rules may be different.

5.1. Summary of elements of the taxation scheme applicable to the investment fund that can be relevant for the investors

At the time of preparation of the Prospectus, the profit of the Fund is not encumbered with any tax payment liability in Hungary. If interest rate, dividend or price gain and any other possible earning arises on foreign investments, it may occur that tax is charged on these gains in the source country (in the country where the gain arises). The taxation of earnings arising on foreign investments is determined by the internal laws of the relevant country and, if appropriate, the convention for the avoidance of double taxation between the relevant country and Hungary.

At the time of preparation of this Prospectus the investment units are encumbered by special tax. The tax base is quarterly the average asset value of the investment unit series of the Fund and the annual tax rate is 0.05% of the tax base. The tax payable is assessed, collected from the Fund, declared and paid by the Fund Management Company.

5.2. Information on the deductions encumbering the yield and exchange gain paid to the investors at the source

- a) According to the Hungarian legislation effective at the time of the Prospectus, the rate of interest tax payable to domestic private persons on the return on Investment units is 15%, which is deducted by the distributor when they are sold. The investment units can be deposited on a long-term investment account on the return of which the distributor does not deduct any tax.
- b) According to the Hungarian legislation effective at the time of the Prospectus, the return on

Investment units may increase/reduce the taxable revenues of domestic legal persons and business associations without legal personality on which, pursuant to the taxation rules in effect, they have to pay tax. At the time of preparation of the Prospectus, the corporate tax rate is 9% respectively. If, upon request of the Investor, the return on Investment unit is broken down, then corporate tax has to be paid only on the exchange gain and interest component of the yield but not on the portion of return that results from dividends.

- c) Taxation of foreign private persons, legal persons and business association without legal personality: If there is a convention on avoidance of double taxation between Hungary and the own country for taxation of the investment unit holder, then the taxation of the income is subject to the domestic laws or the laws of his own country. In lack of such a convention, the Hungarian tax rules applicable to non-residents apply. The Distribution fulfils the tax deduction obligation on the basis of the relevant taxation convention and the domestic taxation rules.

II. Information regarding offering

6. Offering of investment units

Not applicable.

III. Detailed information regarding intermediate bodies

7. Information regarding the investment management company

7.13. Detailed description of the remuneration policy of the UCITS management company (such as: method of calculation of the remuneration and benefits, persons responsible for the determination of the remuneration and benefits, if there is a remuneration committee, the names of the members of the remuneration committee)

At Aegon Fund Management, the work of our colleagues creates value for our clients, which is why we have developed working conditions and an incentive system that allows employees who do excellent work to be retained in the long term and also attracts new talent. This requires a competitive remuneration system in addition to work-friendly conditions and ongoing training.

Our remuneration philosophy is based on monitoring the labor market and developing appropriate references. Part of our philosophy is to ensure that employees who meet expectations are adequately remunerated. To this end, in addition to a fixed income, we use variable pay in certain jobs, primarily in the area of asset management and sales.

At the same time, our remuneration policy only supports healthy risk-taking, thus preventing our colleagues from taking excessive risks that go beyond the mandate. The considered risks also include the sustainability risks, this way supporting the holding's vision that responsible investment practice may create value on the long run. To this end, we make risk indicators part of the interest system, among others, we also use longer-term performance data in the evaluation, and in the case of colleagues with a decisive role in risk-taking (so-called identified), we pay 50% of the variable remuneration, with a three-year deferral. Who. This allows the reward to be reduced or withdrawn in the event of excessive risk-taking after the end of the assessment period. Over the three years, the accrued portion will be invested in key investment funds managed by Aegon Fund Manager, strengthening the interest in the good performance of the funds. A designated group of employees may also receive an annual variable salary (bonus) depending on performance. Employees involved in the bonus: members of the Board of Directors, fund managers and analysts, senior colleagues in the sales area, and the head of the finance and settlement area. The Fund Manager intends to reward excellent performance for the employees involved in this area on personalized terms. Based on the classification of employees working in the above areas, the maximum bonus that can be paid can reach 100 percent of annual income in the case of excellent performance. Maximum performance is achieved when all set goals are exceeded. The setting of personalized goals is the responsibility of the line manager, while its approval is the responsibility of the Chairman and Chief Executive Officer, excluding the job descriptions of the members of the Board of Directors and the identified employees. In their case, the objectives are set under the supervision of Risk Management, while their approval is the responsibility of the Chairman of the Supervisory Board. The fulfillment of the objectives will be assessed, monitored and approved in accordance with the above. In determining the amounts that can be paid out as a bonus, in addition to achieving the individual goals, the size of the bonus frame calculated and approved by the remuneration committee of the Aegon Asset Management Group appears as an additional consideration.

Aegon Fund Management Co. has developed and continuously maintains its remuneration policy in such a way that it complies with the sectoral legal requirements governing fund managers and other regulatory requirements, in particular the NBH's recommendation on financial institutions' remuneration policy. In addition to the above, the Fund Manager always takes into account the remuneration principles of the Group during the development of its remuneration rules.

The remuneration policy is approved by the Supervisory Board and is implemented by the Board of Directors, which is audited annually by internal audit

7.14. Summary of remuneration policy of the UCITS Fund Management Company

For our investors the work of employees of the Fund Management Company creates a value, therefore we developed such working conditions and incentive system by which employees performing excellent work can be maintained for the long run. The monitoring of the labour market and the development of adequate references provides the basis for the Remuneration philosophy of the Fund Management Company. It is also part of our philosophy that employees performing above the expectations should get

an adequate remuneration; for this purpose, we apply a variable payment in addition to the fixed income, with special regard to the Asset Management and Sales Departments.

7.15. Statement by the UCITS Fund Management Company that detailed description of the Remuneration Policy set out in item 7.1.3 hereof is accessible through a website (at the same time giving the reference linking to the website) and that it is also available in printed form if requested.

Detailed extract from the Remuneration Policy of the Fund Management Company is accessible on the website of the Fund Management Company (<https://www.aegonalapkezekelo.hu>) and can be inspected in printed form at the distribution sites.
