H-KE-III-779/2023	29. November 2023.

2.7. Other information regarding the relevant subject

Not applicable.

3. Risk profile of the Investment Fund

3.1. Purpose of the Investment Fund

The Fund's objective is to establish a portfolio for its Investors that generates positive yields – higher than the yields available in the domestic money market – under all circumstances, in other words the Fund pursues a so-called absolute yield strategy. It intends to accomplish this goal primarily by investing in the bond and equity market of the emerging European region. The Fund's asset allocation is aligned with the given capital market conditions.

3.2. Profile of the characteristic investor who are targeted with the investment units of the Investment Fund are

The Fund is primarily targeted to Investors who intend to invest at least for the proposed minimum investment period and who find the value indicated on a scale ranging from 1 to 7 on the risk/profit profile acceptable in comparison to their risk-bearing appetite.

Series	Proposed minimum investment period	Risk rating
VIG Alfa Fund (Series A, HUF)	2 years	3 (intermediate)
VIG Alfa Fund (Series B, PLN)	2 years	3 (intermediate)
VIG Alfa Fund (Series C, CZK)	2 years	3 (intermediate)
VIG Alfa Fund (Series E, EUR)	2 years	3 (intermediate)
VIG Alfa Fund (Series EI, EUR)	2 years	3 (intermediate)
VIG Alfa Fund (Series I, HUF)	2 years	3 (intermediate)
VIG Alfa Fund (Series R, HUF)	2 years	3 (intermediate)
VIG Alfa Fund (Series U, USD)	2 years	3 (intermediate)
VIG Alfa Fund (Series UI, USD)	2 years	3 (intermediate)
VIG Alfa Fund (Series PI, PLN)	2 years	3 (intermediate)

3.3. The asset categories in which the Investment Fund can invest, with special reference to the fact whether the application of derivative transactions is permitted for the Investment Fund

The Fund is willing to buy or sell any available investment instrument – domestic and foreign bonds, mortgage bonds, shares and other securities, deposit and repo transactions, indices and foreign currencies as well as derivative transactions for the former – if it sees serious chance to gain profit.

3.4. Call attention to the item of the Fund rules of the Investment Fund that contains presentation of the risk factors of the Investment Fund

The risk factors of the Investment Fund are contained in Item 26 of the Fund rules

3.5. The purpose (implementation of coverage or investment purposes) and possible effect of application of derivative transactions on the development of risk factors

On behalf of the Fund, the Management Company is allowed to enter into derivative transactions only for the purpose of achieving the investment goals formulated in the Fund rules, for investment assets. Due to their nature, the derivative transactions bear much higher risks than those investment forms that do not

require any leverage. Using proper investment techniques, these risks may be reduced, but they cannot be fully excluded.

Pursuant to provisions relating to investment unit series of the Collective Investment Act, the Fund Management Company can allocate its assets among the investment unit series in the case of transactions aimed at hedging of foreign currency risks, the purpose of which is to reduce the foreign currency risk of specific series of the Fund against the base currency of the Fund.

3.6. If, on the basis of its investment policy, the consolidated risk exposure of the investment fund against a specific institution, which risk exposure arises from investments in transferable securities or money market instruments issued by that institution, from deposits at that institution and from unlisted derivative transactions, may exceed 20 percent of the assets of the investment fund, call attention to the special risks arising therefrom

In accordance with Section 8 (4) of Government Decree 78/2014, the consolidated risk exposure of the Fund cannot exceed 20% of the assets of the Fund.

3.7. If the Investment Fund mainly invests in asset categories not belonging to the transferable securities or financial instruments or adapts a certain index, call attention to this element of the investment policy of the Investment Fund

Not applicable.

3.8. In the event that, due to the possible composition of the portfolio or to the applicable management technique, the net asset value of the Investment Fund may strongly fluctuate, call attention to this fact

Not applicable.

3.9. If, based on the authorisation of the Supervisory Authority, the Investment Fund may invest even 100% of its assets in various transferable securities and money market instruments issued by an EEA Member State, its self-government, by a third country or an international organization in which one or several member states are members, call attention to this fact

3.10. Other information regarding the relevant subject

Not applicable

Results of the assessment of the probable impact of the sustainability risk on the return of the offered financial product:

(disclosure as per Article 6 (1) a) of the SFDR):

The return of financial products offered by the Fund Manager, like that of investment funds, may be impacted by sustainability risks (e.g. climate risk, transition risk, extra costs due to the use of fossil fuels). These effects generally occur within a longer investment period, up to 10 years or more, and regarding their results, they may even have a significant impact on the return of a given financial product, thereby possibly deteriorating their performance. (For example, due to increased attention on environmental considerations, a company operating in a given sector, may be subject to a disadvantage if it fails to switch from a “traditional” operating model to a more modern and environmentally sustainable operation method). The above can typically impact the given company’s market perception, and thus its market value in the long run, which factor is duly taken into account by the Fund Manager in the course of the asset selection decisions.

The degree of sustainability risks may differ for each financial product, which the Fund Manager continuously monitors and duly informs investors, as required by law.

In the case of the Fund, the Fund Manager hereby informs investors that the portfolio does not fall into the category of a financial product that promotes specific environmental or social characteristics or a combination thereof as defined in the SFDR Regulation (EU 2019/2088) or a financial product aimed at a

sustainable investment. In selecting the investments upon which this financial product is based, the Fund Manager does not take into account the specific EU criteria for environmentally “sustainable” business activities (Taxonomy Regulation, EU 2020/852), as this product does not intend to meet enhanced sustainability criteria.

4. Accessibility of information to the investors

4.1. Naming of the place where the prospectus, the fund rules, the key investor information document, the reports serving regular information as well as the announcements designed for extraordinary information, including the information regarding payments to the investors and redemption of investment units can be accessed

The Fund Management Company publishes all regular or extraordinary information and announcements regarding the Fund at the official Publication sites of the Fund. The official Publication sites of the Fund are the websites <https://kozzetetelek.mnb.hu> and <https://www.vigam.hu>.

The public Prospectus as well as the Key Investor Information Document prepared for public issue of the investment units of the Fund can be inspected at the distribution sites and in the headquarters of the Fund Management Company.

4.2. Other information regarding the relevant subject

Not applicable.

5. Taxation information

This information has been compiled in accordance with the applicable legislation. The date of the last amendment of the Prospectus is – in accordance with Section 164 (1) bn) of the Kbtv. [the Hungarian act on collective investment forms] – included in the investment fund register maintained by the MNB [National Bank of Hungary], which is available on the MNB’s website at <https://intezmenykereso.mnb.hu>. The current legislation may change after the Prospectus has been written; it is the Investor’s responsibility to read and to be aware of the relevant regulations in force before purchasing the investment units. The Fund Manager shall not be liable for any damage caused to Investors due a lack of knowledge on their part of the applicable tax laws. Should the investors have to pay withholding tax on the returns they earn on the investment units, i.e. on price gains, due to changes in the tax regulations, the Fund Manager and the Distributor shall not be responsible for deducting such withholding tax.

Distribution abroad: The Fund Management Company calls the investors’ attention to the fact that detailed review of the taxation laws is essential in making their investment decision and to the fact that in case of sale to a foreign country, the taxation rules may be different.

5.1. Summary of elements of the taxation scheme applicable to the investment fund that can be relevant for the investors

At the time of preparation of the Prospectus, the profit of the Fund is not encumbered with any tax payment liability in Hungary. If interest rate, dividend or price returns and any other possible income arises on foreign investments, it may occur that tax is charged on these gains in the source country (in the country where the gain arises). The taxation of gains arising on foreign investments is determined by the internal laws of the relevant country and, if appropriate, the convention for the avoidance of double taxation between the relevant country and Hungary.

At the time of preparation of this Prospectus the investment units. The tax base is quarterly the average asset value of the investment unit series of the Fund and the annual tax rate is 0.05% if the tax base. The tax payable is assessed, collected from the Fund, declared and paid by the Fund Management Company.

5.2. Information on the deduction encumbering the yield and price return paid to the investors

- a) According to the Hungarian legislation effective at the time of preparation of the Prospectus, the rate of interest tax payable to domestic private persons on the return of Investment units is 15%, which is deducted by the distributor when they are sold. The investment units can be deposited on a long-term investment account on the return of which the distributor does not deduct any tax.
- b) According to the Hungarian legislation effective at the time of the Prospectus, the return of Investment units may increase/reduce the taxable revenues of domestic legal persons and business associations without legal personality on which, pursuant to the taxation rules in effect, they have to pay tax. At the time of preparation of the Prospectus, the corporate tax rate is 9% respectively. If, upon request of the Investor, the return of the Investment unit is broken down, then corporate tax has to be paid only on the price return and interest component of the return but not on the portion of return that results from dividends.
- c) Taxation of foreign private persons, legal persons and business association without legal personality: If there is a convention on avoidance of double taxation between Hungary and the own country for taxation of the investment unit holder, then the taxation of the income is subject to the domestic laws, i.e. the laws of his own country. In lack of such a convention, the Hungarian tax rules applicable to non-residents apply. The Distribution fulfils the tax deduction obligation on the basis of the relevant taxation convention and the domestic taxation rules.

Not applicable.

7.13. Detailed description of the remuneration policy of the UCITS management company (such as: method of calculation of the remuneration and benefits, persons responsible for the determination of the remuneration and benefits, if there is a remuneration committee, the names of the members of the remuneration committee)

At VIG Fund Management, the work of our colleagues creates value for our clients, which is why we have developed working conditions and an incentive system that allows employees who do excellent work to be retained in the long term and also attracts new talent. This requires a competitive remuneration system in addition to work-friendly conditions and ongoing training.

Our remuneration philosophy is based on monitoring the labor market and developing appropriate references. Part of our philosophy is to ensure that employees who meet expectations are adequately remunerated. To this end, in addition to a fixed income, we use variable pay in certain jobs, primarily in the area of asset management and sales.

At the same time, our remuneration policy only supports healthy risk-taking, thus preventing our colleagues from taking excessive risks that go beyond the mandate. The considered risks also include the sustainability risks, this way supporting the holding's vision that responsible investment practice may create value on the long run. To this end, we make risk indicators part of the interest system, among others, we also use longer-term performance data in the evaluation, and in the case of colleagues with a decisive role in risk-taking (so-called identified), we pay 50% of the variable remuneration, with a three-year deferral. Who. This allows the reward to be reduced or withdrawn in the event of excessive risk-taking after the end of the assessment period. Over the three years, the accrued portion will be invested in key investment funds managed by VIG Fund Manager, strengthening the interest in the good performance of the funds. A designated group of employees may also receive an annual variable salary (bonus) depending on performance. Employees involved in the bonus: members of the Board of Directors, fund managers and analysts, senior colleagues in the sales area, and the head of the finance and settlement area. The Fund Manager intends to reward excellent performance for the employees involved in this area on personalized terms. Based on the classification of employees working in the above areas, the maximum bonus that can be paid can reach 100 percent of annual income in the case of excellent performance. Maximum performance is achieved when all set goals are exceeded. The setting of personalized goals is the responsibility of the line manager, while its approval is the responsibility of the Chairman and Chief Executive Officer, excluding the job descriptions of the members of the Board of Directors and the identified employees. In their case, the objectives are set under the supervision of Risk Management, while their approval is the responsibility of the Chairman of the Supervisory Board. The fulfillment of the objectives will be assessed, monitored and approved in accordance with the above. In determining the amounts that can be paid out as a bonus, in addition to achieving the individual goals, the size of the bonus frame calculated and approved by the remuneration committee of the Group appears as an additional consideration.

VIG Fund Management Co. has developed and continuously maintains its remuneration policy in such a way that it complies with the sectoral legal requirements governing fund managers and other regulatory

requirements, in particular the NBH's recommendation on financial institutions' remuneration policy. In addition to the above, the Fund Manager always takes into account the remuneration principles of the Group during the development of its remuneration rules.

The remuneration policy is approved by the Supervisory Board and is implemented by the Board of Directors, which is audited annually by internal audit

7.14. Summary of remuneration policy of the UICIT Fund Management Company

For our investors the work of employees of the Fund Management Company creates a value, therefore we developed such working conditions and incentive system by which employees performing excellent work can be maintained for the long run. The monitoring of the labour market and the development of adequate references provides the basis for the Remuneration philosophy of the Fund Management Company. It is also part of our philosophy that employees performing above the expectations should get an adequate remuneration; for this purpose, we apply a variable payment in addition to the fixed income, with special regard to the Asset Management and Sales Departments.

7.15. Statement by the UCITS Fund Management Company that detailed description of the Remuneration Policy set out in item 7.1.3 hereof is accessible through a website (at the same time giving the reference linking to the website) and that it is also available in printed form if requested.

Detailed abstract of the Remuneration Policy of the Fund Management Company is accessible on the website of the Fund Management Company (<https://www.vigam.hu>) and can be inspected in printed form at the distribution sites.

8. Information regarding the Custodian
